

### AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application.

#### **Listing of Claims:**

Claim 1 (Currently amended): A method comprising:

establishing a wireless connection with a network;  
transmitting an image containing text in a first language over ~~a~~the network via the  
wireless connection; and  
receiving a translation of the text in a second language over the network via the wireless  
connection.

Claim 2 (Original): The method of claim 1, wherein the image is a second image, the method further comprising:

capturing a first image containing the text in the first language;  
receiving instructions to edit the first image; and  
editing the first image to generate the second image in response to the instructions.

Claim 3 (Original): The method of claim 1, further comprising displaying the image.

Claim 4 (Original): The method of claim 1, further comprising displaying the image and displaying the translation of the text in the second language simultaneously.

Claim 5 (Canceled)

Claim 6 (Original): The method of claim 1, wherein the image is a first image containing first text, the method further comprising:

transmitting a second image containing second text in the first language over the network;  
and  
receiving a translation of the first text and the second text in the second language over the network.

Claim 7 (Original): The method of claim 6, further comprising transmitting the first image and the second image over a network in response to a single command from a user.

Claim 8 (Original): The method of claim 6, further comprising displaying one of the translation of the first text and the translation of the second text in response to a command from a user.

Claim 9 (Original): The method of claim 1, further comprising compressing the image.

Claim 10 (Original): The method of claim 1, further comprising receiving the image from an image capture device.

Claim 11 (Original): The method of claim 1, further comprising prompting a user to provide additional information comprising at least one of an account number, a password, an identification of the first language, and identification of the second language, a dictionary and a server location.

Claim 12 (Original): The method of claim 1, wherein the network comprises at least one of a wireless telecommunication network, a cellular telephone network, a public switched telephone network, an integrated digital services network, a satellite network and the Internet.

Claims 13-15 (Canceled)

Claim 16 (Currently amended): A device comprising:

an image capture apparatus that receives an image containing text in a first language;  
a transmitter that transmits the image over a network via a wireless connection; and  
a receiver that receives a translation of the text in a second language over the network via the wireless connection.

Claim 17 (Original): The device of claim 16, further comprising a display that displays the translation.

Claim 18 (Original): The device of claim 16, further comprising a display that displays the translation and the image simultaneously.

Claim 19 (Original): The device of claim 16, further comprising a controller that edits the image in response to the commands of a user.

Claim 20 (Original): The device of claim 16, further comprising an image capture device that supplies the image to the image capture apparatus.

Claim 21 (Original): The device of claim 20, wherein the image capture device is a digital camera.

Claim 22 (Currently amended): The device of claim 16, further comprising a cellular telephone that establishes ~~a communication link~~ the wireless connection between the device and the network.

Claims 23-25 (Canceled)

Claim 26 (Currently amended): A system comprising:

a client device having an image capture apparatus that receives an image containing text in a first language, a client transmitter that transmits the image over a network to a remote server via a wireless connection and a client receiver that receives a translation of the text in a second language over the network from the remote server via the wireless connection; and

the remote server having a receiver that receives the image over the network from the client, a translator that generates a translation of the text in the second language and a transmitter that transmits the translation over the network to the client.

Claim 27 (Currently amended): The system of claim 26, the remote server further comprising an optical character recognition module that extracts the text from the image.

Claim 28 (Previously presented): A method comprising:

capturing a first image containing text in a first language with an image capture device;  
generating from the first image a second image containing the text in response to a command from a user;

transmitting the second image over a network;

receiving a translation of the text in a second language over the network; and

displaying the second image and the translation.

Claim 29 (Previously presented): The method of claim 28, further comprising establishing a wireless connection with the network.

Claim 30 (Canceled)

Claim 31 (Previously presented): The method of claim 10, wherein the image capture device comprises a digital camera.

Claim 32 (New): The method of claim 28, further comprising displaying the second image and the translation simultaneously.

Claim 33 (New): A device comprising:

- an image capture apparatus that obtains an image containing text in a first language;
- a controller that edits the image in response to commands of a user;
- a transmitter that transmits the edited image over a network; and
- a receiver that receives a translation of the text in a second language over the network.

Claim 34 (New): The device of claim 33, wherein the controller establishes a wireless connection with the network and transmits the image over the network via the wireless connection.

Claim 35 (New): The device of claim 33, further comprising a display that displays the edited image and the translation simultaneously.

Claim 36 (New): The device of claim 33, wherein the device comprises a handheld device.

Claim 37 (New): A method comprising:

- transmitting an image containing text in a first language over a network;
- receiving a translation of the text in a second language over the network; and
- displaying the image and the translation simultaneously.

Claim 38 (New): The method of claim 37, further comprising:

- storing a plurality of images containing text; and
- transmitting at least a portion of the plurality of images over the network in response to a single command from a user.

Claim 39 (New): The method of claim 26, wherein the client device further comprises a controller that edits the image in response to commands of a user.
